

Harriett

AI Transaction Assistant for Pritchett-Moore Real Estate

Phase 1 Review

June 2026

Prepared by JSB Media

What We Built

Harriett reads your contracts, builds your to-do list, drafts your marketing, coordinates your vendors, and texts you what needs to happen next. All on your real transaction data.

Tested on real data: Built and tested on 604 2nd St NW, Gordo, AL — a real closed file from your office.

Where Harriett Fits

Pre-listing

Agent asks Harriett before any paperwork exists. Presentation prep, CMA draft, listing copy, social content. Agent-facing only.

Active transaction

Harriett detects a new listing or contract and runs the five core coordination workflows automatically.

Time Savings at a Glance

Workflow	Per deal	Annual value
Marketing materials	45 min	\$18,000
Photo coordination	30 min	\$11,250
Document drafting	45 min	\$14,062
Inspection coordination	60 min	\$18,750
Closing coordination	90 min	\$28,125
Total	4.5 hrs/deal	\$90,187/year

Based on 50 deals/year at full office volume

Pre-listing Workflow

Capability	Today	With Harriett
Listing materials	Agent assembles manually	Harriett drafts property-specific flyer and one-pager
MLS description	Vicki drafts via ChatGPT	Harriett drafts in agent's voice, respects 800-char limit
Social content	Agent writes or skips	Harriett drafts Facebook/Instagram matched to agent tone
CMA prep	Agent pulls comps manually	Harriett assembles draft for agent review (pricing agent-approved)
Seller meeting notes	Voice memo, transcribed manually	Agent shares recording; Harriett summarizes and creates follow-up

Marketing Materials Workflow

Trigger: Signed listing agreement detected

Activity	Today	With Harriett
Just Listed postcard	Alyssa sends	Harriett drafts copy, Alyssa reviews and approves
Social post	Agent writes or skips	Harriett drafts, agent approves
MLS remarks	Vicki drafts via ChatGPT	Harriett drafts in agent's voice
Agent News entry	Alyssa adds manually	Harriett drafts, Alyssa posts

Photo Coordination Workflow

Trigger: Signed listing agreement or agent request

Activity	Today	With Harriett
Photographer booking	Agent calls/emails	Harriett drafts outreach, sends for approval, tracks completion
Scheduling	Phone/email back-and-forth	Harriett manages scheduling messages
Follow-up	Agent follows up manually	Harriett monitors and follows up if delayed

Document Drafting Workflow

Trigger: New listing, new contract, or agent request

Document	Today	With Harriett
Net Sheet	Generated manually per offer	Auto-drafted from contract data for every offer
Broker letter	Gail drafts	Harriett drafts, Gail or Wilson approves
Compliance check	Coordinator checks manually	Harriett flags missing disclosures: RECAD, Lead-Based Paint
Form packet	Assembled manually	Harriett generates required forms checklist per deal type

Inspection Coordination Workflow

Trigger: Contract signed, under-contract status confirmed

Activity	Today	With Harriett
Inspector booking	Buyer arranges (Alabama buyer beware)	Harriett's outreach with available dates from vendor map
Scheduling	Phone/email	Harriett manages messages, confirms with all parties
10-day window tracking	Agent tracks manually	Harriett tracks deadline, surfaces on dashboard
Earnest money	Chanda holds check	Harriett flags status in checklist; Chanda handles deposit

Closing Coordination Workflow

Trigger: Closing date set in contract

Activity	Today	With Harriett
Title company coordination	Agent emails/calls	Harriett drafts outreach, tracks confirmation
Closing reminders	Agent tracks manually	Harriett surfaces countdown on dashboard
MLS status change	Alyssa updates manually	Harriett adds to coordinator task list with trigger date
Just Sold postcard	Alyssa sends	Harriett drafts copy, Alyssa approves
Weekly Excel Master list	Coordinator emails Wilson/Gail Monday	Harriett generates from deal data

What Harriett Takes Off Alyssa's Plate

	New Listing	Pending Sale	Closed File
Harriett targets	Checklist verification flag; MLSP form New Draft Page Deleted	MLSP form Pending Sale Sold	MLSP form Closed File Sold

The Overwatch Layer

Peace of mind across all pending deals. Harriett watches every open transaction and surfaces what is falling through the cracks:

- Missing disclosures (RECAD, Lead-Based Paint, FHA addendum)
- Approaching deadlines (inspection window, closing date)
- Stalled steps (photographer not confirmed, title not contacted)
- Compliance events (loan type changes — e.g. USDA to FHA)

This runs across all five workflows simultaneously in the dashboard view.

What Harriett Does Not Do

- **Price properties.** CMA drafts are for agent review only.
- **Send to consumers without approval.** Every outbound message goes through the broker approval queue.
- **Replace Alyssa's MLS entry, file labeling, or physical file management.** That stays with the office.
- **Handle earnest money.** Chanda owns that process.
- **Make legal or compliance determinations.** Harriett flags; agents and broker decide.

What's Next: Phase 2

- **Microsoft 365 integration:** Harriett reads agent inboxes and detects new listings/contracts automatically
- **A2P 10DLC registration:** Production SMS starting Day 1 (1-2 weeks for approval)
- **Three workflows live:** Marketing materials, photo coordination, document drafting
- **Per-agent training:** Harriett learns each agent's voice, vendors, and preferences
- **Broker approval dashboard:** For Wilson and Tanner to review/approve all outbound messages
- **AI Enablement Kickstart:** Custom Claude Projects for Wilson and Tanner, 90-min agent workshop, 15-prompt starter library
- **Pilot:** 2-3 opted-in agents, 12 weeks, weekly reviews and iteration

Let's Go
